PURPOSE

Capital Grants are generally limited to comprehensive capital campaigns, which are typically for building purchases, construction, expansion, renovation, and/or land acquisition. Only nonprofit organizations with capital projects that benefit Colorado and its residents are qualified to apply. When making funding decisions, the Foundation prioritizes:

- Projects that address root problems with substantive solutions
- Projects with strong evidence of support from the community and the organization's board
- Projects in rural communities that face greater challenges in accessing funds for capital projects
- Projects that reinforce the foundation's strategic priorities in K-12 public education, natural resources, and community development
- Projects that incorporate green building and sustainable development practices
- Organizations with sound management practices, effective executive leaders, and engaged board members

These priorities are seen in the following areas of interest:

- Arts and Culture
- Community Development
- Education
- Parks & Recreation
- Well-Being of Children, Youth & Families

Each of these priorities has more specific intricacies, each of which can be viewed through the [website](#).
